SCIENCE

"Nature's diversity is the cornerstone of resilience, the source of wonder, and the essence of life itself."

Terraqua- Ecosystem in a Bottle:

With "Ecosystem in a Bottle," you will create a Terraqua Column, a model that allows you to explore the relationship between elements that live or relate to both land habitats and aquatic habitats.

Material required: Soil, water, plants

Bihar, located in the eastern part of India, is known for its diverse landscapes, ranging from fertile plains to dense forests. Its biodiversity encompasses a wide variety of flora and fauna, making it a hotspot of ecological significance. However, rampant human activities threaten the stability of this biodiversity, leading to habitat loss, species extinction, and ecosystem degradation. Write answers of following questions under the heading "Impact of Human Activities on Biodiversity in Bihar":

- (i) Describe any four factors affecting the biodiversity of Bihar.
- (ii) Enlist any four human activities that unintentionally disturb the biodiversity of Bihar. Support your answer with pictures on A4 size sheets.

MATHEMATICS

“Mathematics is on the artistic side, a creation of new rhythms, orders, designs, harmonies, and on the knowledge side, is a systemic study of various rhythms and orders.”

The unique feature of art and craft in Bihar is the intrinsic beauty of creativeness. Madhubani painting, a traditional art form of Mithila region, often incorporates Mathematical concepts especially geometric patterns.

Prepare a project around the theme of “The Quadrilateral Family Tree”, encompassing the following components in a sequence

- ❖ Acknowledgement
- ❖ Cover page adorned with Madhubani art
- ❖ An introduction to the topic
- ❖ A poster illustrating the quadrilateral family tree
- ❖ An exploration of quadrilateral properties
- ❖ An analysis of practical applications in using pictures of a real world scenarios.
- ❖ Submit your project on A4 size sheets and poster A3 size chart sheet.
